## Summary

Enthusiastic Software Engineer with strong foundations in OOP, Java, Flutter, and JavaScript. Hands-on experience building cross-platform apps, working with Firebase, REST APIs, and implementing clean architecture. Passionate about problem solving and building scalable real-world applications.

## Experience

### TechR Business Solutions

Dec 2023 – Sep 2025

Mobile App Development Intern

Pune, India

- Developed 3+ production-grade Flutter apps integrated with Firebase, Firestore, and Cloud Messaging.
- Improved overall application performance by 15% through optimized state management (GetX/Provider).
- Implemented MVC architecture to enhance scalability and maintainability.
- Integrated secure payment gateway (phonepe) for smooth in-app transactions.
- Collaborated with cross-functional teams to deliver end-to-end mobile solutions with clean code.

## Projects

### Real-Time Communication App | Flutter, Firebase, Provider, WebRTC

- Engineered a real-time video calling and messaging app leveraging Flutter, Firebase, and WebRTC.
- Optimized streaming pipeline to reduce latency by 28%, ensuring seamless communication.
- Implemented modular, reusable UI components with OOP principles for maintainable and scalable architecture.

### Weather Forecast App | Flutter, REST API, GetX

- Developed a dynamic weather forecast app with Flutter, integrating REST APIs for real-time data retrieval.
- Applied MVC architecture and GetX state management for clean, maintainable, and scalable codebase.
- Enhanced user experience with responsive UI and smooth state-driven updates.

### Text Formatting Tool | React.js, Bootstrap

- Built a responsive text formatting tool in React.js with reusable components for instant text transformations.
- Optimized rendering performance to ensure fast and efficient user interactions.

## Skills

**Languages:** C/C++, Java, Dart, HTML, CSS, JavaScript, React.js

**Frameworks:** Flutter, Android, GetX, Provider, MVC Architecture

**Cloud/Database:** NoSQL (Firebase), MySQL

**Tools:** Git, GitHub, Android Studio, VS code

**Other:** REST APIs, WebRTC, DS & Algorithms, OOPs

## Education

### PES Modern College of Engineering

Dec 2021 - June 2025

BE - Information Technology ( CGPA: 7.16/10 )

Pune, India

## Position of Responsibility

### App Club

Dec 2023 – Dec 2024

Technical Team Member

Pune, India

- Contributed to college app projects, tech activities and participated in multiple competitions and events.

## Achievements

Winner – SRUJAN Project Competition for “Agrimate App”.
