## SUMMARY

Results-driven **Mobile App Developer** with **1.5+ years** of experience building production-ready mobile applications. Experienced in Flutter, Firebase, Native Android integration, REST APIs, and scalable mobile architectures. Successfully delivered **6+** production applications with expertise in performance optimization, clean architecture, and end-to-end application deployment. I enjoy solving tricky problems and working across the stack when needed.

## EXPERIENCE

**Flutter Developer** | **Dhruv Global IT Solutions Pvt Ltd** | Pune

*Dec 2025 – Present*

- Expanded product accessibility for **1,000+ users** by introducing **multi-language support**, making apps usable for a broader, non-English user base.
- Designed an end-to-end expiry date detection algorithm that improved extraction accuracy by **45%**, reducing manual verification efforts.
- Built the **camera module** using **Native Android code** via Flutter **platform channels**.
- Shipped **3** production apps on the **Google Play Store**; handled Architecture, **Firebase (Auth, Firestore, FCM, Analytics)**, and **AdMob integration** end-to-end.
- Built **Firebase Cloud Functions** for backend automation **scheduled jobs**, **push notification** workflows.

**Mobile App Development Intern** | **TechR Business Solutions** | Pune

*Dec 2023 – Sep 2025*

- Delivered **3+** production-grade apps with Firebase and Cloud Messaging, working across the full development cycle.
- Enhanced application performance by **30%** by refactoring state management to **GetX and Provider**.
- Integrated **PhonePe payment gateway**, handled edge cases, failure flows, and secure transaction handling.
- Introduced **MVC architecture** that the team kept using after I left made the codebase significantly easier to maintain.

## PROJECTS

**Zhopper** — *Flutter, REST API, GetX, MySQL, MVVM*

- Deal-aggregator app that pulls offers from multiple e-commerce platforms into one place.
- Integrated third-party APIs, **AdMob**, and OAuth clean MVVM structure throughout.

**Weather Forecast App** — *Flutter, REST API, GetX, MVC*

- Developed a Flutter application consuming OpenWeather REST API and Implemented location-based weather updates.
- Reduced API calls through caching mechanism.
- Used GetX for state management.

## SKILLS

**Languages:** Dart, Java, C++, SQL, JavaScript

**Frameworks:** Flutter, Android SDK, React.js

**Cloud & DB:** Firebase (Firestore, FCM, Auth), MySQL, SQLite, Hive

**Tools:** Git/GitHub, Android Studio, VS Code, Postman

**Concepts:** REST APIs, Clean Architecture, State Management (GetX, Provider), Push Notifications, WebRTC, DSA, OOP, Payments

## ACHIEVEMENTS

- Win First Prize among **60+** teams in a project competition for an Android app built to solve real-world problems for farmers.
- Delivered Android App Development Workshop to **100+** college students.
- Core **Android Team Member** at Google Developer Student Clubs (GDSC), PES MCOE.

## EDUCATION

**BE – Information Technology** | **PES Modern College of Engineering**

*Dec 2021 – Jun 2025*

CGPA: 7.16/10 | Pune, India
